AI Governance & Operations Desk · Prompt Library

Summary

Template	Task	Prompt /5	Template /6	Output /5	Status
AG-Reply-Inquiry-v1	Answer an employee inquiry	5	6	5	**Approved**
AG-Classify-Message-v1	Sort incoming messages	5	6	5	**Approved**
AG-Summarize-Message-v1	Brief for the department head	5	6	5	**Approved**
AG-Mask-Message-v1	Mask before pasting	5	6	5	**Approved**
AG-Draft-Memo-v1	Referral memo	5	6	5	**Approved**

How the scores were given

Each criterion scores 1 if it passes and 0 if it does not. A template is approved at 5/5, 6/6 and 5/5. Test 1 checks the prompt against RACE, Test 2 checks the template file for the library, and Test 3 checks the output with the verification checklist from Day 4. Scenario: AI Governance & Operations Desk · Owner: Abdulaziz Alshahrani · Date: 2026_10_15

Template 1 of 5 · AG-Reply-Inquiry-v1_2026_10_15

Answer an employee inquiry: Write a short, polite answer to an employee's question about AI governance, policy or agent use, using only the Desk Facts.

Sample input (invented, masked)

`[INQUIRY]`: Hello, can I use the approved writing assistant to draft a report that includes customer phone numbers? And how do I get access to the internal knowledge assistant?
`[LANGUAGE]`: English · `[TONE]`: Neutral · `[MAX_WORDS]`: 80 · `[FACTS]`: AG-Facts-v1

Test 1 · Prompt quality

Criterion	Evidence	Score
Role	Desk agent at the AI Governance & Operations Desk; reader is an employee; the governance officer reviews the draft	1
Action	One task in four ordered steps: list the questions, find answers in CONTEXT, write the reply, add CHECK	1
Context	The full Facts block (8 facts) in CONTEXT	1
Expectation	Five language values, tone, maximum words, fixed format and the CHECK section	1
Input and rules	INPUT between ---; use only CONTEXT, NOT IN FACTS, no promises, no sensitive data requests, no judging, no assumptions	1
Total		**5 / 5**

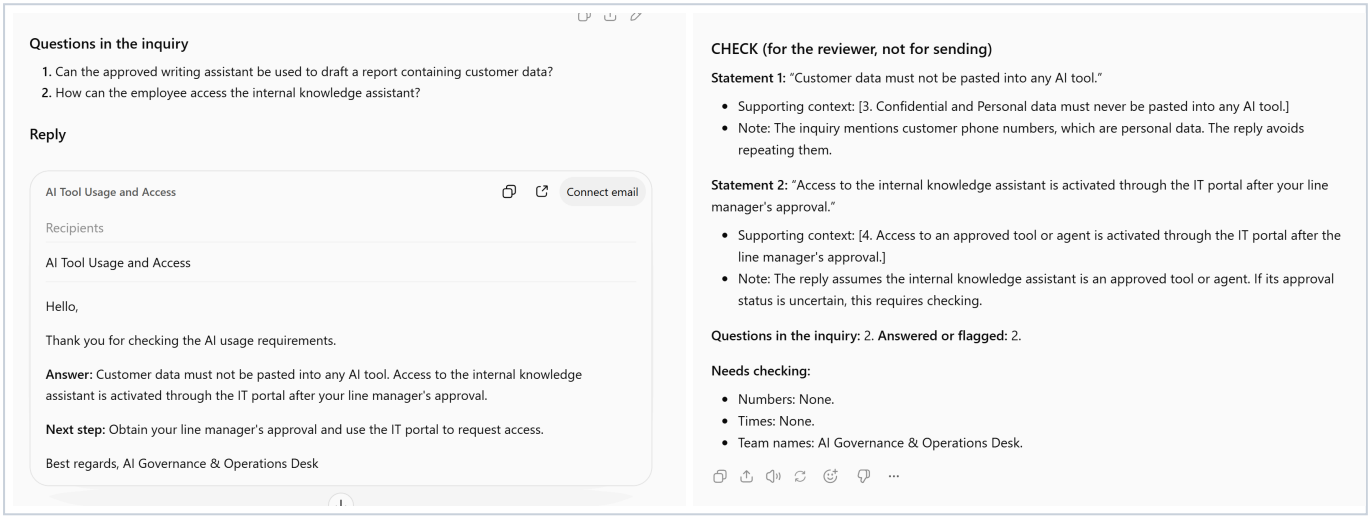

Test 2 · Template quality

Criterion	Evidence	Score
Name and purpose	Name, purpose and "Use when" at the top of the file	1
Variables	5 variables with type, allowed values, default and "if missing"	1
Fixed safety rules	Use only CONTEXT, no dates or action claims, no credential requests, no personal data repeated, no judging of claims	1
Tested	Two fills (A English · Neutral, B Arabic · Friendly) and one edge case (C decision date) pass; swap test also passed	1
Safe examples	Only invented, masked data	1
Owner and version	Abdulaziz Alshahrani · v1 · tested 2026_10_15	1
Total		**6 / 6**

Test 3 · Output quality

Criterion	Evidence	Score
Facts supported and current	Both statements rest on facts 3 and 4; both quoted lines exist in the Facts block	1
Numbers, dates and names exact	"IT portal" and "line manager" as in the facts; no dates	1
No promises or actions	No date promised and no action claimed	1
No sensitive data repeated	The customer phone numbers are not repeated	1
Complete and natural	2 questions, 2 answered; about 65 words; natural wording	1
Total		**5 / 5**

Screenshot

Notes: All three tests reached the full score. No fix needed.
Status: **Approved**

Template 2 of 5 · AG-Classify-Message-v1_2026_10_15

Sort incoming messages: Label each message as Policy, Issue, Activation, Use Case, Incident or Other.

Sample input (invented, masked)

```
[MESSAGE]: I pasted a customer complaint with the customer's full name and phone number into the writing assistant this morning. What should I do?
[CATEGORIES]: default list · [LANGUAGE]: English · [FACTS]: AG-Facts-v1
```

Test 1 · Prompt quality

Criterion	Evidence	Score
Role	Desk assistant who sorts messages; the desk team reads the result before acting	1
Action	Choose exactly one category, then one reason and one next step from CONTEXT	1
Context	The Facts block plus a category guide for the default list	1
Expectation	Language values for reason and next step, neutral tone, fixed three-line format	1
Input and rules	INPUT between ---; one category only, Incident first, next step only from CONTEXT, no personal data repeated	1
Total		**5 / 5**

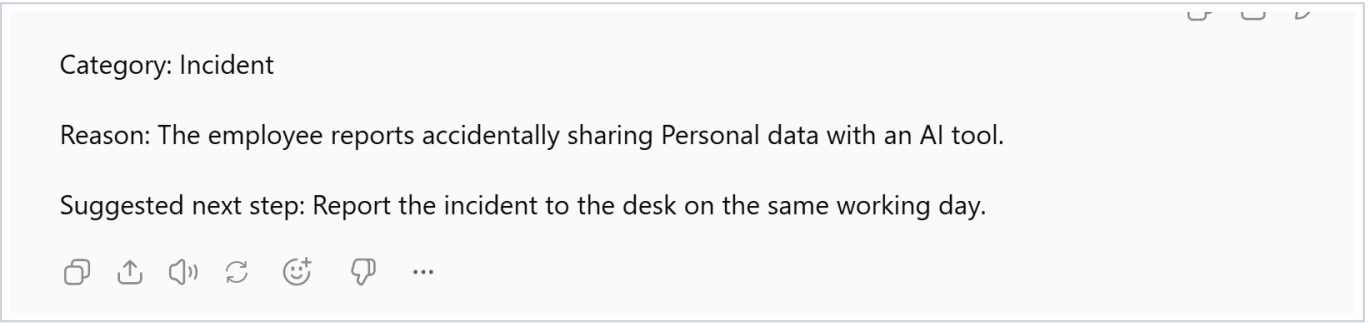

Test 2 · Template quality

Criterion	Evidence	Score
Name and purpose	Name, purpose and "Use when" at the top of the file	1
Variables	4 variables with type, allowed values, default and "if missing"	1
Fixed safety rules	One category only, Incident first, next step only from CONTEXT or NOT IN FACTS, no personal data, no judging	1
Tested	Two fills (A English incident, B Arabic access request) and one edge case (C restaurant question → Other) pass	1
Safe examples	Only invented, masked data	1
Owner and version	Abdulaziz Alshahrani · v1 · tested 2026_10_15	1
Total		**6 / 6**

Test 3 · Output quality

Criterion	Evidence	Score
Facts supported and current	The next step comes from fact 7; nothing else is stated	1
Numbers, dates and names exact	"same working day" and the category name "Incident" exactly as given	1
No promises or actions	No date promised and no action claimed	1
No sensitive data repeated	Refers to "Personal data" without repeating any name or number	1
Complete and natural	Exactly three lines: category, reason, next step	1
Total		**5 / 5**

Screenshot

Notes: All three tests reached the full score. No fix needed.
Status: **Approved**

Template 3 of 5 · AG-Summarize-Message-v1_2026_10_15

Brief for the department head: Summarize an employee's message in three lines for the department head, and label the reported case as Hallucination, Bias, Workflow failure or Other.

Sample input (invented, masked)

```
[MESSAGE]: Hi, I am User-1 from the finance team. Since Sunday, the internal invoice agent (Agent-X) has been giving totals that do not match the invoice files. Yesterday it told me that invoice Request-X was already paid, but our records say it is still open. I am worried we will send wrong reminders to suppliers. Can someone look into this before Thursday's payment run?
[LANGUAGE]: English · [MAX_WORDS]: 60
```

Test 1 · Prompt quality

Criterion	Evidence	Score
Role	Desk assistant who summarizes for the head of the employee's department, who decides	1
Action	Four ordered steps: main request, case type, codes and deadlines, summary	1
Context	The message is the only source; case types are defined in CONTEXT	1
Expectation	Language values, neutral tone, maximum words, exactly three lines	1
Input and rules	INPUT between ---; report the claim and never confirm it, no added facts, say what is unclear, no personal data	1
Total		**5 / 5**

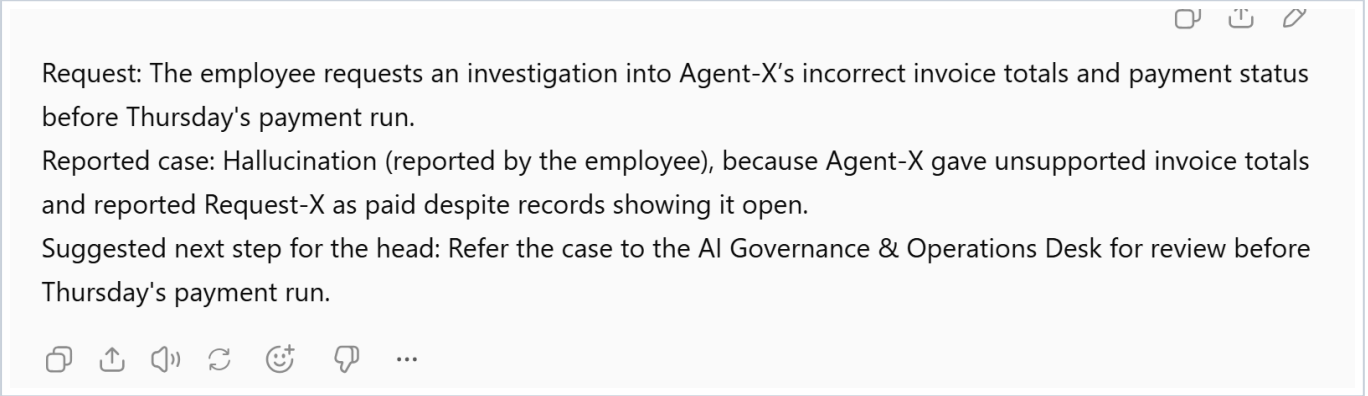

Test 2 · Template quality

Criterion	Evidence	Score
Name and purpose	Name, purpose and "Use when" at the top of the file	1
Variables	3 variables with type, allowed values, default and "if missing"	1
Fixed safety rules	Use only the message, never confirm a hallucination or bias, say what is unclear, no decision about a person, no personal data	1
Tested	Two fills (A English hallucination claim, B Arabic bias claim) and one edge case (C vague message) pass	1
Safe examples	Only invented, masked data	1
Owner and version	Abdulaziz Alshahrani · v1 · tested 2026_10_15	1
Total		**6 / 6**

Test 3 · Output quality

Criterion	Evidence	Score
Facts supported and current	Only what the message says; no cause or extra fact added	1
Numbers, dates and names exact	Agent-X, Request-X and Thursday's payment run exactly as written	1
No promises or actions	The next step is a suggestion for the head, not a decision	1
No sensitive data repeated	No name or personal detail; only codes	1
Complete and natural	Exactly three lines within the 60-word limit (labels not counted); the case is labelled as reported, not confirmed	1
Total		**5 / 5**

Screenshot

Request: The employee requests an investigation into Agent-X's incorrect invoice totals and payment status before Thursday's payment run.
Reported case: Hallucination (reported by the employee), because Agent-X gave unsupported invoice totals and reported Request-X as paid despite records showing it open.
Suggested next step for the head: Refer the case to the AI Governance & Operations Desk for review before Thursday's payment run.

Notes: All three tests reached the full score. No fix needed.
Status: **Approved**

Template 4 of 5 · AG-Mask-Message-v1_2026_10_15

Mask before pasting: Replace names, employee numbers, emails, phones and any credentials in a message with codes before it goes to an AI tool.

Sample input (invented, masked)

`[RAW_MESSAGE]`: Hello, this is Sami Test (employee no. EMP-000000). The workflow agent failed again on request REQ-0000-TEST. You can call me on 0500000000 or email sami.test@example.com. I put the API key sk-TEST-0000-FAKE in the ticket so you can check it.
`[EXTRA_TERMS]`: none

Test 1 · Prompt quality

Criterion	Evidence	Score
Role	Privacy assistant at the desk; a desk agent checks the result before it is used	1
Action	Three ordered steps: find details, replace with codes, write message, code key and check line	1
Context	A masking table for every detail type, plus EXTRA TERMS	1
Expectation	Keep the original language, tone and length; fixed three-part format	1
Input and rules	INPUT between ---; never copy original values, never invent, "Nothing to mask" when empty, flag unsure details	1
Total		**5 / 5**

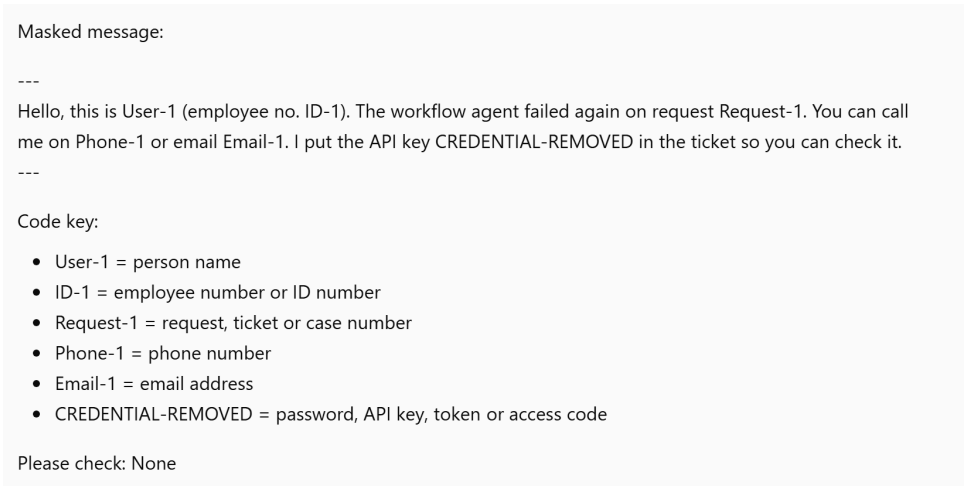

Test 2 · Template quality

Criterion	Evidence	Score
Name and purpose	Name, purpose and "Use when" at the top of the file	1
Variables	2 variables with type, allowed values, default and "if missing"	1
Fixed safety rules	Never copy original values, never invent or ask for values, keep everything else unchanged, flag unsure details	1
Tested	Two fills (A English with six detail types, B Arabic with an extra term) and one edge case (C nothing to mask) pass	1
Safe examples	Only invented, masked data	1
Owner and version	Abdulaziz Alshahrani · v1 · tested 2026_10_15	1
Total		**6 / 6**

Test 3 · Output quality

Criterion	Evidence	Score
Facts supported and current	Nothing added; only the six details are replaced	1
Numbers, dates and names exact	Every other word and punctuation mark kept exactly as written	1
No promises or actions	No promise or action claimed	1
No sensitive data repeated	No original value appears anywhere; the code key lists types only	1
Complete and natural	All six details masked (name, ID, request, phone, email, API key); "Please check: None"	1
Total		**5 / 5**

Screenshot

Notes: All three tests reached the full score. No fix needed.
Status: **Approved**

Template 5 of 5 · AG-Draft-Memo-v1_2026_10_15

Referral memo: Turn an employee's request into a short internal memo to the right team (AI Platform team or AI Governance Committee) when it needs their action or decision.

Sample input (invented, masked)

`[REQUEST]`: I am User-3 from customer service. We would like a new AI agent that drafts first replies to customer emails using our internal FAQ. It would save the team about two hours a day. What do we need to do to start?
`[LANGUAGE]`: English · `[TONE]`: Formal · `[MAX_WORDS]`: 100 · `[FACTS]`: AG-Facts-v1

Test 1 · Prompt quality

Criterion	Evidence	Score
Role	Desk agent who writes memos; reader is the team in CONTEXT; reviewed by the governance officer	1
Action	Three ordered steps: find the need, choose the recipient from CONTEXT, write the memo	1
Context	The full Facts block, which names the teams and their responsibilities	1
Expectation	Language values, tone, maximum words, fixed six-line memo format	1
Input and rules	INPUT between ---; recipient only from CONTEXT or NOT IN FACTS, never decides or recommends, no promises, no personal data	1
Total		**5 / 5**

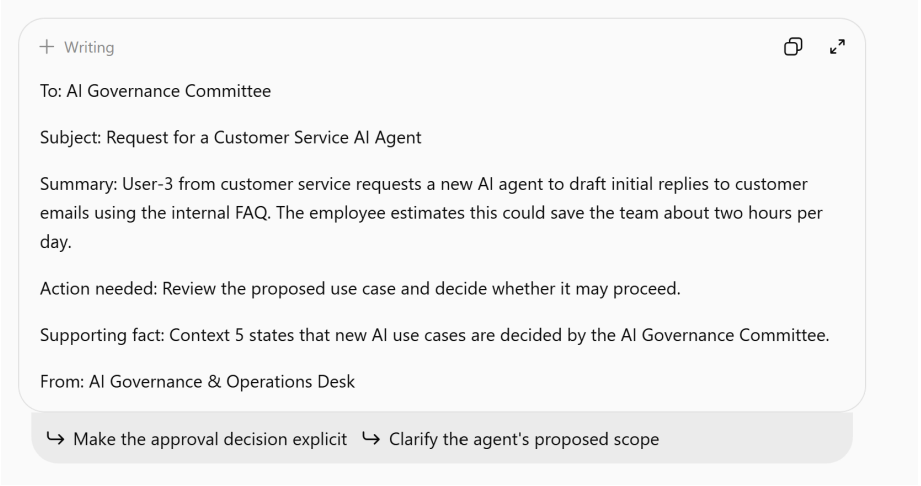

Test 2 · Template quality

Criterion	Evidence	Score
Name and purpose	Name, purpose and "Use when" at the top of the file	1
Variables	5 variables with type, allowed values, default and "if missing"	1
Fixed safety rules	Recipient only from CONTEXT, "No memo needed" when the employee can act alone, never decide or recommend, no dates, no personal data	1
Tested	Two fills (A English use case, B Arabic workflow failure) and one edge case (C incident with no team in the facts) pass	1
Safe examples	Only invented, masked data	1
Owner and version	Abdulaziz Alshahrani · v1 · tested 2026_10_15	1
Total		**6 / 6**

Test 3 · Output quality

Criterion	Evidence	Score
Facts supported and current	Recipient and supporting fact come from fact 5	1
Numbers, dates and names exact	"about two hours" a day and User-3 kept as written	1
No promises or actions	Asks the committee to decide; no recommendation and no date	1
No sensitive data repeated	Only the code User-3	1
Complete and natural	All six memo lines present, within the 100-word limit	1
Total		**5 / 5**

Screenshot

Notes: All three tests reached the full score. No fix needed.
Status: **Approved**
